IAC-D-57/105

9 September 1958

Post-Mortem on SNIE 34-58:

Stability of the Present Regime in Iran,

dated 26 August 1958

I. Findings

Preparation of this estimate was handicapped by a lack of information concerning the membership, organization, and capabilities of groups in opposition to the current regime in Iran. This was particularly true with respect to orientation and groupings of both the senior and junior officers in the military.

II. Action

The IAC agencies are requested to take such action as is feasible to remedy the above weaknesses in intelligence coverage.
